

# SUMMER BRIDGE: 2022-2023

## IMPORTANCE OF SUMMER BRIDGE

The Summer Bridge program is an excellent opportunity for students to become familiar with the rigors and demands of SciTech before actually starting their high school career. Students must attend the Summer Bridge before taking classes in the fall.

The program is designed to enhance and develop strong leadership skills and prepare students for college and for their future careers.

SciTech staff will provide students with comprehensive support to facilitate academic excellence as they bridge the transition between middle school and high school and progress toward the fulfillment of their academic, career, and life goals. In the program students will be honoring the learning process and following the abundant research that supports the value of such programs.

Participation will foster a community of scholars, which recognizes the intrinsic value, diversity, and integrity of each individual while creating strong bonds of fellowship.

Students must be in dress code while in attendance of all school activities, including the Summer Bridge program.

### SCHEDULE

Dates: August 15th-August 19th

Times: 7:45 – 2:00 Daily
