

STUDENT DEVICE SUMMER PLAN

Seniors - Turn in your device at the John Harris Field House on June 3rd or 4th between 8AM and 2PM.

Other students - Keep your Chromebook or PC over the summer so that it can be used for continued learning or to attend District summer learning programs.

If you are moving out of the District, return the device and charger to your original building or the Lincoln Administration building.

Take good care of your device! For technical support or help with issues, please call (717) 703-4171

If you are attending a Summer Learning Opportunity have your device charged and ready to bring to your sessions.

Allow yourself to stay sharp in reading and math this summer by reading some books and using your Imagine Math account.
