

Be the Light

Mentors Needed

Make a difference in the life of a Harrisburg School District Student

Join a new, in-school mentoring program that connects the youth of the District with caring adult volunteers from our community

- Help young people navigate the everyday challenges of school, society, and their community
- 5 hours/month commitment, with training and support from professionals
- Meet in our schools, during the school day
- Help with goal-setting, confidence, and academic encouragement
- Provide support, direction, guidance, and companionship

We will match you with a student in grades 3 through 10 and provide the framework and communication support to help make the relationship a success.

This program is being run in partnership with LivingWell Institute.

Thank you for considering this unique opportunity to impact our students!
