

COVID-19 TESTING SITES

To help ensure that local Emergency Departments can focus on patients in need of emergency care, students, families, and community members are advised to access COVID-19 testing at the sites listed in this document.

UPMC Express Care, UPMC Urgent Care, and primary care sites in Central Pa. offer COVID-19 tests to symptomatic patients who present for an evaluation with a provider. Based on the outcome of the evaluation, the UPMC provider may order a COVID-19 test.

Please note that these sites are not providing:

- Pre-procedural screening.
- Travel screenings.
- Testing for asymptomatic patients.
- Testing for patients who have a written referral or order from a medical provider*.

**In Central Pa., patients with a written referral or an order for testing should go to the UPMC COVID-19 Testing Sites below.*

To schedule a COVID-19 testing appointment, please call the UPMC phone number below or visit the Rite Aid or CVS Pharmacy websites listed on page 3 of this document. Thank you.

Primary Care Provider COVID-19 Testing

Many family practices and primary care providers are providing COVID-19 tests for symptomatic patients. It is recommended that you call your regular physician's office first.
